Sir:

PETITION FOR ACCESS

Petitioner hereby requests access to the above-captioned pending application. This application is the parent application of CIP Application Serial No. 813,234 that issued as U.S. Patent No. 5,223,003, as is shown by the attached cover sheet of the aforesaid '003 patent. The title of the application is not known. It is apparent from this cover sheet that the issued '003 patent relies upon Serial No. 641,394 for its Section 120 priority.

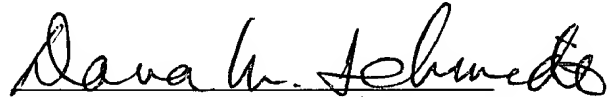

Petitioner hereby relies upon Section 103 of the MPEP for authority for access, and specifically page 100-4, a copy of which is enclosed. That portion states that if the Applicant in the pending application "objects to the petition for access", the Applicant must submit along with the objection "two sets of a copy of the portion of the application that relates to the common subject matter [of the CIP application] including all materials relating to the prosecution in the application of the subject matter claimed in the patent." Petitioner calls upon the Patent Office to demand from the Applicant such two copies, or a waiver of objections to access to the above-captioned application.
